

Meeting with Palakkad District Collector on 04-01-2020

Problem statements discussed

1. Effective Water Management

- Water Shortage in Summer Season.
- Irrigation facility enhancement.
- Need for Behavioural change.
- Crop Pattern.

2. Increasing the income of farmers

- Aspirational level of farmers is low.
- Not Diversifying the crops.
- Scattered Landholding (Average land holding capacity is less than one acre).
- Value addition of locally available resources.
- Need solution for economic growth in rural areas

3. Solid Waste Management

- Need for an effective system for inorganic non-recyclable waste management.
- Scientific/Management/Behavioural change.

4. District Disaster Management Plan

- Need for a micro-level disaster management plan
