## Discussion Overview

- The Agriculture Department will implement a novel programme for revitalising the organic farming sector called ‘Jeevani which aims at helping the state to achieve self-sufficiency in vegetable farming and promoting pesticide-free organic vegetable production by aiding people in setting up kitchen gardens in available spaces on the premises of their houses/institute. *Agriculture department expressed their willingness to set up this project on our campus.*
- Puduserry GramPanchayat is planning to buy a wildlife warning system developed at Telangana University. Details of the device will be shared soon.
- Landslide and damage to water storage is a concern
- They are willing to arrange demo plots for any studies/ innovation.
- Agriculture officer can call farmers meeting if necessary.
- Agro Machineries are repaired the Agro-Service Centre Malampuzha
